

### **Walking directions from the Holiday Inn:**

Step into Henley St., and walk to Clinch Avenue (around the corner). Turn right on Clinch; cross the bridge (\*). Turn left on 11<sup>th</sup> St. Make a right on White St. (one block away from Clinch). You'll have the new UT parking tower on your left. Make a left at the end of the garage (~30 meters). You'll quickly be on a new bridge over Cumberland St. At the end of this short bridge you are at the bottom of the Hill, on campus. Make a quick right at the end of the bridge, and make a quick left to head up the Hill. First building on your left will be Buehler Hall (a Chemistry building). Head up the Hill. At the "top" you'll have the **Science and Engineering (S&E) building** on your left. All sessions but the first one are in Room 307 S&E. The first session is in 304 **Nielsen Physics building**, about 35 meters beyond S&E.

Walking time: ~ 8 minutes (at a good pace).

(\*) From the Clinch Ave. bridge the S&E building is already seen at a distance at the South-West edge of all buildings you'll see from there (a big brick building, easy to spot). Right beyond it, you may be able to devise one set of luxury boxes for the football stadium (which sits 107 K people, so if you get lost, and end up at the stadium, you'll know you did not go too far astray).
